Data analysis

Lucere Datascience	Your personal data science assistant.	link here
Flowtrail AI	Easily create insightful reports and dashboards from multiple databases	link here
Datrics	Unleash the power of GenAI Analytics with our virtual analyst.	link here
Qquest	Generative AI for insight queries.	link here
DXYFER	Unlock the potential of your data with Dxyfer's AI-based augmented intelligence tools.	link here
ChatKPI	AI-Powered data analyst on your phone starting with Shopify	link here
Traversaal	AI-Powered Conversational Search	link here
AIQuire	Unlock hidden insights and make smarter decisions with AIQuire.	link here
selfGPT	Transform your files into AI insights.	link here
ChatUrData	ChatGPT for your Data	link here
EasyLytics	AI-powered data analysis for online marketers.	link here
Brewit	Your AI-powered data analyst for every team.	link here
CleverCharts AI	Making Data Analytics Understandable and Accessible	link here

Data analysis (cont)

Zoho Sheet	Collaborative data analysis.	link here
Buster.so	Embed AI-powered data experience into your web app.	link here
Laketool	Data analysis/experimentation platform with data lakes.	link here
Datatera	Streamlined data transformation and analysis tasks.	link here
DataGPT	Business conversational data analyzer.	link here

AI app integration

Floom	Orchestrates & executes Generative AI pipelines	link here
Nitro	A fast, lightweight inference server to supercharge apps with local AI.	link here
Modelfuse	Enables seamless integration of generative algorithms.	link here
UsefulAI	Augments product capabilities.	link here
BraintrustData	Simplified model development and evaluation.	link here
AnyAPI	Add AI features to your product in minutes	link here
SuperDuperDB	Deploy & integrate scalable database models.	link here
Superface	API analysis & app-API communication.	link here

Software development

OriginAI	Building custom enterprise software with GenAI	link here
SaaSQuick	AI-powered code generation for rapid MVP development.	link here
Plandex	Build complex software with AI.	link here
Ellipsis	Turn every engineer into a 10x engineer with our AI tool.	link here
Dwim	The simplest way to build complex software.	link here
Rely.io	Keep track of service quality, health and maturity in a single place.	link here
CodeMaker	Revolutionizing software development with unprecedented automation.	link here
Duckie AI	Manage a team of AI software development companions that get your work done.	link here
ProjectX	Assisted startup full-stack app development.	link here
Continue.dev	Refactors code, answers questions, edits code.	link here

Data visualization

ChatViz	Enhance your data visualization with ChatGPT.	link here
Minard	Data visualization for the LLM era.	link here
Vizzy	Visualize any kind of data rapidly.	link here

Data visualization (cont)

Tableau	See and understand your data with Tableau.	link here
Jumprun	Your intelligent canvas to make sense of anything	link here
D&AVIZ	Transforming raw data into vibrant visuals.	link here
Baseboard	Transform your data into actionable insights with AI.	link here
LIDA	Automatic data exploration and visualisation generation.	link here
Olli	Data insights and analysis platform.	link here

Code testing

Testdriver	The first QA AI agent for engineering teams.	link here
Reflect.run	Automate web testing with visual regression detection.	link here
Welltested	Generates thoughtful test cases for code.	link here

Code documentation

AI CodeMate	Code documentation	link here
AutomaticDocs	Use AI to generate documentation for your software projects.	link here
DocWhizz	An expert AI assistant for your developer docs.	link here
Docify AI	Auto-generate and streamline code documentation.	link here

Code documentation (cont)

SolidGPT	Collaborative code assistance with interactive features.	link here
CodeThread	Code docs and knowledge sharing for devs	link here
Documentationlab	Generate documentation from code & chat with it.	link here
Figstack	Your Intelligent Coding Companion	link here

Webscraping

Scrapegraph-ai	AI-powered scraping made easy.	link here
Skrapy	Skrapy is a data-scraping visual AI agent.	link here
FetchFox	Web data extraction & analysis.	link here
Simplescraper	Website data extraction and analysis with enhancements.	link here
https://theresanaiforthat.com/ai/web-scrapeai/	Automate your data collection with no-code.	link here

Cybersecurity

Polaris	Proactive AI-powered cybersecurity insights.	link here

Cybersecurity (cont)

Sixth SAST	GPT4 powered VSCode extension for security in coding.	link here
0dAI	Trust the co-pilot for unparalleled cybersecurity assistance.	link here
INSINTO	Online threat analysis & harmful content detection	link here
Microsoft Security Copilot	Improved cybersecurity defense & automation.	link here
Robust Intelligence	AI Security, Delivered. Real-time protection and validation of AI models and data.	link here
Pentest Copilot	Improved ethical hacking & pentesting support.	link here
CrowdStrike	Endpoint protection for business cybersecurity.	link here
Securitybulldog	Threat detection & remediation for cybersecurity.	link here
Gamma AI	AI-powered training for security awareness.	link here
